r27.4.2 Changelog

```
+--------------------------------+
|   r27.4.2 Release - 186339 |
+--------------------------------+
```

Release day May 2nd 2024

Improvements

- DSOF-26760 - Receive health widget is now resizable
- DSOF-26933 - Resized d3manager columns in the 'Network' tab

Fixes

- DSOF-25916 - Fixed an issue where device recordings with multiple states played back packets out of order
- DSOF-26271 - Fixed an issue where the d3 version of projects was not visible in in d3manager
- DSOF-26379 - Fixed an issue where the frame counter incorrectly changed when jumping on from a section using a direct map to one using a precomp
- DSOF-26447 - Fixed an issue where late joining Actors could be out of sync when in play to end of section mode
- DSOF-26467 - Fixed a crash to desktop when shutting down on Gx3
- DSOF-26840 - Fixed an issue where RX nodes published a display adapter list every 10 seconds
- DSOF-26958 - Fixed an issue where Frame Blend could become reversed when changing speed, causing jerky motion
- DSOF-26961 - Fixed a RenderStream Uncompressed crash
