```

Release day: September 16th 2024

## Fixes

- DSOF-28225 - CTRL + SHIFT + D now correctly duplicates and renames layers again!
- DSOF-28267 - Designer will no longer report an access violation on launch when certain rare configurations of history files exist on disk.
- DSOF-28292 - The visualiser camera will no longer stop rendering when an LED screen is added to the stage and no default gamma space has been set.
